Re: Presentation, "Treatment of Localized Prostate Cancer"

Dear Dr. Pugach:

I want to thank you on behalf of the Prostate Cancer Support Association of New Mexico for your presentation at our "Quality of Life after a Prostate Cancer Diagnosis" conference on November 5, 2016. We had ninety-one attendees from the public and the Prostate Cancer Support Association. We are grateful for your assistance in sharing information about this specialized treatment for prostate cancer with this many people. The conference was a great success in part due to your presentation.

We look forward to our continued association with you and the Western States HIFU and Pacific Coast Urology Medical Center.

Thanks again,

Lou Reimer
Conference Chairman
